

IEEE Virtual Conference on Applications of Commercial Sensors (IEEE VCACS 2015)

**Submission Opens:
1 March 2015**

**Submission Closes:
15 August 2015**

**Virtual Sessions
Begin
15 June 2015**

**Virtual Sessions End
15 October 2015**

Sessions Schedule

Sessions will be scheduled and announced as accepted papers are approved by the Technical Program Committee (TPC). Sessions will be limited to no more than one per week.

To submit a paper, register for the conference, or discover online virtual session details, please visit:

<http://research.ece.ncsu.edu/ieee-sensors/>

Announcing a new IEEE Virtual Conference

The IEEE Sensors Council (SC) and IEEE Engineering in Medicine & Biology Society (EMBS) have joined forces to launch a new virtual conference that focuses on practical applications of sensors. Successful authors will submit papers that will teach others how to build useful electronic devices using commercially available microprocessor platforms and sensors. Successful authors will include complete details (circuit diagrams, PCB layouts, computer code, SolidWorks files, etc.) so that others can readily implement their working prototypes. A short video of each working system is required. Accepted papers will be included in the Conference Proceedings and published worldwide in IEEE Xplore.

Special Features

- There are no conference registration fees. To register for the conference, join our dedicated mailing list: <http://research.ece.ncsu.edu/ieee-sensors/>
- Authors present their work during a Google Hangout on Air.
- Conference attendees view the conference via a streaming video link. They ask questions via Twitter.
- Recordings of the authors' presentations will be posted to YouTube.
- The EMBS is sponsoring a Track on Portable & Wearable Biomedical Sensors & Systems.
- The Organizing Committee will identify conference best papers. Appropriate awards will be presented at an IEEE international conference.

Organizing Committee:

Co-Chairs: Troy Nagle & Walt Besio
TPC Chairs: John Muth & Greg Mann
Treasurer: Edward Grant
Publicity: Fred Livingston
IT Consultant: Dan Green
