

**CALL FOR PAPERS**  
**IEEE Transactions on Nanobioscience**  
**Thematic Issue: “Nano/Molecular Medicine and Engineering”**

The IEEE Transactions on Nanobioscience will devote a themed issue “**Nano/Molecular Medicine and Engineering**” to a collection of papers highlighting research and technology development in the field of nano-biotechnology, molecular engineering, micro/nano-fluidics, system integration, nano-biology and nano-medicine. IEEE Nanotechnology Council is sponsoring the 8th IEEE International Conference on Nano/Molecular Medicine and Engineering (IEEE-NANOMED2014) held on November 9 – 12, 2014 in Kaohsiung, Taiwan, to foster interaction between physicians, scientists, engineers in these emerging areas. Areas of interest include but are not limited to:

- Nano and molecular technologies in medical theranostics
- Nanotechnology in drug delivery
- Bio/nano sensing
- Biochips and Bio-MEMS
- Nanomaterials for tissue engineering and biology
- Frontiers in nanobiotechnology and nanomedicine

Submissions are solicited from conference participants and other researchers in the field for a review paper or a research paper for this themed issue. Manuscripts will be subject to the normal peer review procedures of the IEEE Transactions on Nanobioscience.

Follow the guideline (<http://tnb.embs.org/forauthors.html>), and submit your paper to Manuscript Central at <http://mc.manuscriptcentral.com/tnb-embs>, indicating in the cover letter that you wish the paper to be considered for the Special Issue “Nano/Molecular Medicine and Engineering”.

Submission deadline: March 1, 2015  
Anticipated publication: September, 2015

Please address all other correspondence regarding this special issue to the Guest Editors Jin-Woo Kim and Deok-Ho Kim.

Jin-Woo Kim, Ph.D.  
Professor, Biological Engineering, Biomedical Engineering, Nanoscience & Engineering  
University of Arkansas
