

CALL FOR PAPERS
IEEE Transactions on Nanobioscience
Thematic Issue:
“Micro and Nanotechnology in Medicine”

The IEEE Transactions on Nanobioscience will devote a themed issue “Micro and Nanotechnology in Medicine” to a collection of papers highlighting research and technology development responding to the biomedical grand challenges facing our society and the world that can be addressed by interfacing biology and medicine with Micro and Nanoscale technologies. IEEE EMBS is sponsoring the second biennial Conference on Micro and Nanotechnology in Medicine to foster interaction between scientists, engineers and medical researchers in the context of real-world medical needs and issues.

Submissions are solicited from conference participants and other researchers in the field for a review paper or a research paper for this themed issue. Manuscripts will be subject to the normal peer review procedures of the IEEE Transactions on Nanobioscience.

Follow the guideline (<http://tnb.embs.org/forauthors.html>), and submit your paper to Manuscript Central at <http://mc.manuscriptcentral.com/tnb-embs>, indicating in the cover letter that you wish the paper to be considered for the Special Issue “Micro and Nanotechnology in Medicine”.

Submission deadline: July 1, 2015

Please address all other correspondence regarding this special issue to the Guest Editors Rashid Bashir, Ali Khademhosseini, Michelle Khine.

Rashid Bashir, Ph.D.
Abel Bliss Professor of Engineering, Department of Bioengineering
University of Illinois at Urbana-Champaign
Email: rbashir@illinois.edu

Ali Khademhosseini, MAsc., Ph.D.
Associate Professor, Harvard-MIT Division of Health Sciences and Technology
Email: alik@rics.bwh.harvard.edu

Michelle Khine, Ph.D.
Associate Professor, Dept. of Biomedical Engineering, University of California, Irvine
Email: mkhine@uci.edu
