

CALL FOR PAPERS
IEEE Transactions on Nanobioscience
Thematic Issue:
“Advances in NanoBioEngineering ICNBE’18”

The IEEE Transactions on Nanobioscience will devote a themed issue “Advances in NanoBioEngineering ICNBE’2018” to a collection of papers highlighting research and technology being developed at the interface of Nanotechnology and Bioengineering in response to the grand challenges facing our society and the world in the environmental, medical and energy fields. The topics of the papers will include, but will not be limited to,

- ❖ NanoBioMaterials
- ❖ Nanotechnology Systems
- ❖ Nanotechnology and Nanoscience
- ❖ NanoBioChemistry
- ❖ Environment and Sustainable Energy
- ❖ NanoBioMedicine
- ❖ NanoBioEngineering

IEEE EMBS R9 Monterrey Chapter is co-sponsoring the 1st International Congress on NanoBioEngineering organized by the Universidad Autonoma de Nuevo Leon through the School of Chemical Sciences, as the inaugural event of their new Research Center on Biotechnology and Nanotechnology. The event will be a platform to foster interactions between scientists, engineers, and medical researchers and discuss the advances and future applications of NanoBioEngineering Research.

Submissions are solicited from the ICNBE’2018 congress participants and other researchers in the field for a perspective, review paper or a research paper for this themed issue. In this issue, IEEE Transactions on Nanobioscience will highlight and explore research and technology being developed at the interface of Nanotechnology and Bioengineering

Follow the guidelines at <https://tnb.embs.org/for-authors/> and submit your paper to Manuscript Central at <https://mc.manuscriptcentral.com/tnb-embs> indicating in the cover letter that you wish the paper to be considered for the Special Issue “Advances in NanoBioEngineering ICNBE’18”.

Submission deadline: December 31, 2018

Please address all other correspondence regarding this special issue to the Guest Editors:

Preferably at the common conference e-mail: congresonanobioingenieria@gmail.com

Jose Rubén Morones Ramírez, PhD
Professor of Chemical Engineering,
Department of Chemical Engineering
Faculty of Chemical Sciences,
Universidad Autonoma de Nuevo Leon
