

Dr. Carmen Poon is currently an Assistant Professor at the Department of Surgery, The Chinese University of Hong Kong (CUHK). She received the B.A.Sc. in Engineering Science, M.A.Sc. in Biomaterials and Biomedical Engineering & Electrical and Computer Engineering at University of Toronto, and Ph.D. in Electronic Engineering at CUHK. Her research interests are in wearable sensing and endoscopic informatics that have potential to change surgical practices. Several pieces of her works have been rated *Highly Cited Papers* by *ISI Web of Science* (2015-2018) and collectively, her works have been cited >2300 times in Scopus (as of 25 Dec. 2018).

Carmen is serving as Conference Chair of the 16th International Conference on Wearable and Implantable Body Sensor Networks, which will be held in Chicago, USA, 2019. She has served as IEEE Engineering in Medicine and Biology Society (EMBS) Administrative Committee member (2014-2016), and Chair for EMBS Technical Committee on Wearable Biomedical Sensors and Systems (2016-2017). She was Managing Editor for IEEE JOURNAL OF BIOMEDICAL AND HEALTH INFORMATICS (2009-2016), during which the Journal's impact factor has doubled from 1.6 to 3.4. She now serves on the Editorial Boards for several international peer-reviewed journals published by IEEE, IOP, Elsevier and ACM.

Carmen is a Senior Member of IEEE. She received the IFMBE/IAMBE Early Career Award awarded by International Federation of Medical and Biological Engineering / The International Academy of Medical and Biological Engineering in 2015, and the IEEE-EMBS Academic Early Career Achievement Award “for contributions to wearable sensing and endoscopic surgery” in 2018.
