

Jean-Christophe Olivo-Marin (F'12) received the Ph.D. and H.D.R. degrees in optics and signal processing from Institut d'Optique Théorique et Appliquée, University of Paris-Orsay, France. He is the Head of the BioImage Analysis Unit at Institut Pasteur and the director of the institute Carnot Pasteur Microbes & Santé. He chaired the Cell Biology and Infection Department (2010-2014) and was CTO and Director of the Center for Innovation and Technological Research (2015-2017) at Institut Pasteur. He was a staff scientist at the European Molecular Biology Laboratory, Heidelberg, from 1990 to 1998. He is a Fellow of IEEE and of SPIE, an IEEE EMBS Distinguished Lecturer (2021-2022), an IEEE SPS Distinguished Lecturer (2015-2016), and was Chair of the IEEE SPS Bio Imaging and Signal Processing Technical Committee (BISP-TC) (2009-2011), Chair of the IEEE International Symposium on Biomedical Imaging Steering Committee (2014-2016) and General Chair of the IEEE International Symposium on Biomedical Imaging in 2008. He was awarded the IEEE EMBS Distinguished Service Award in 2019. He is a co-director of the EMBS International Summer School in Biomedical Imaging. His research interests are in image analysis of multidimensional microscopy images, computer vision and motion analysis for cellular dynamics, and in mathematical approaches for biological imaging.
