

# IEEE DataPort™ Data Solution for Individuals & Institutions

**IEEE** *DataPort*™

# Serving Growing Data Needs

**IEEE *DataPort* was developed by IEEE specifically to meet growing data needs of researchers and engineers.**

- **Data and analytics can accelerate research efforts**
- **Most research funding agencies now require researchers to retain data, manage data, and make data accessible**
- **Many institutions across the globe are moving towards “Open Data” and institutions want to facilitate this for their faculty/researchers**
- **Institutions (academic, government, and industry) need a reliable, secure, low-cost, easy-to-use data platform to support their data needs.**
- **Data is critical to support reproducibility of academic research**

# What is IEEE DataPort?

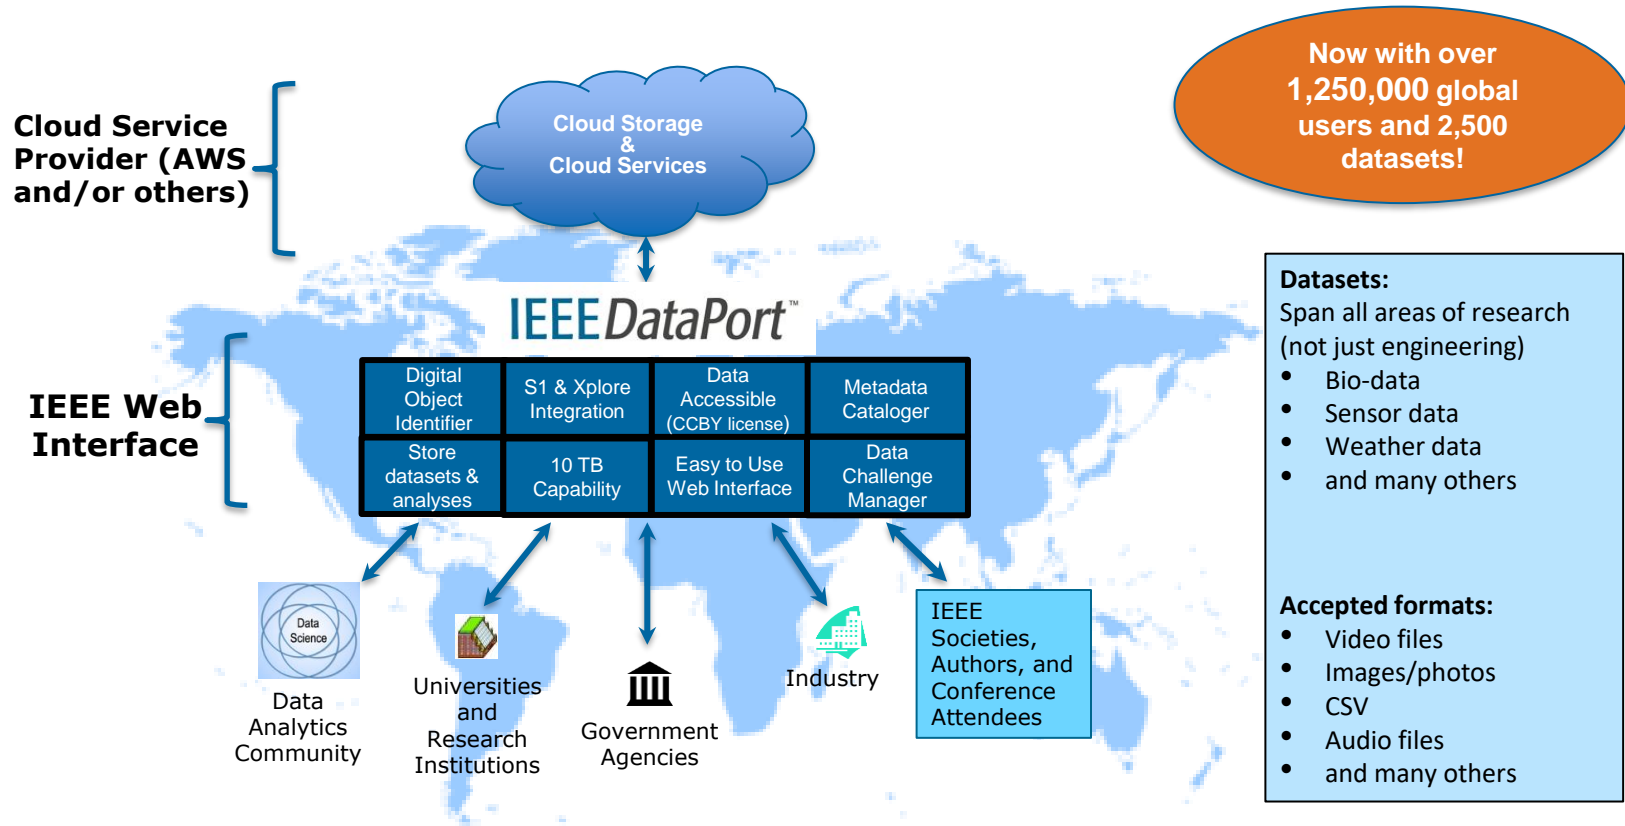

The screenshot shows the IEEE DataPort website homepage. At the top, there is a navigation bar with links to IEEE.org, IEEE Xplore Digital Library, IEEE Standards, IEEE Spectrum, and More Sites. On the right side of the navigation bar are icons for a shopping cart, Login, and Create Account. Below the navigation bar is the IEEE DataPort logo, followed by menu items: DATASETS, COMPETITIONS, SUBMIT A DATASET, and a SEARCH button with a magnifying glass icon. The IEEE logo is also present on the right side of the page. The main content area features a large banner image of a globe with a network of glowing connections. The text on the banner reads "Gain Exposure for Your Research." with a "Learn More >" link below it. Below the banner are four columns of content, each with an icon, a title, a short description, and a "Learn More" link:

- WHY IEEE DATAPORT?** Store, search, and access standard or Open Access datasets up to 2TB. [Learn More](#)
- ACCESS DATASETS** Login for freely available Open Access datasets or subscribe for full access. [Learn More](#)
- SUBMIT A DATASET** Storing and sharing your datasets on IEEE DataPort is completely free. [Learn More](#)
- GET UPDATES** Get the latest datasets and insights delivered to your inbox. [Learn More](#)

# Additional Benefits to Institutional Subscribers

- Access datasets (both open access and non-open access) uploaded to IEEE *DataPort* to advance your research
- Store and consolidate all your institution's data on one trusted, reliable, and secure platform
- Each dataset receives a DOI so data can always be retrieved and referenced
- Gain global exposure for research led by your institution
- Meet research funding agency requirements for publishing open data and making data available on an open access basis
- Host your data in any format, from video, audio, and images to CSV and TXT files
- Avoid having to establish your own cloud storage for data saving costs and operational responsibilities
- All institutional members can store up to 10TB per dataset and can store multiple datasets
- Access custom usage dashboards for your institution which show datasets uploaded by your institution and those using IEEE *DataPort* from your institution
- Brand the datasets uploaded by your institution with your institution's logo to increase exposure and recognition of your valuable research
