

Nomination Instructions

Award Description

THE IEEE EMBS AWARD FOR EXCELLENCE IN BIOMEDICAL TECHNOLOGY

In memoriam of William J. Morlock

(Honorarium \$3,000 USD/Travel Reimbursement up to \$2,000 USD)

The William J. Morlock Award was established in 1960 by the family of William J. Morlock to give recognition to a qualified person with an original contribution involving important application of electronics techniques and concepts to the solution of biomedical problems. The Award is presented every two years, with the most recent presentation having been made in 2011.

The choice of a nominated candidate should be based on one or more of the following achievements:

- Over an extended period, adding recognized worthwhile increments to the field, the total of which represents an outstanding contribution.
- A single contribution of theory, instrument design or technique of outstanding significance.
- Contribution in education toward biomedical electronics, through academic activities or a series of tutorial writings.
- Publications of outstanding papers on theory or practice or as an editor of material that has had an important influence on the development of some field of biomedical electronics.
- Important application of electronic techniques and concepts to the solution of biomedical problems. This should be an original contribution involving electronics. The mere application of instrumentation designed by someone else does not qualify under this category.

It is not a requirement that papers illustrating the above achievements appear in IEEE publications, nor is it required that the nominated candidate be a member of the IEEE.

Nomination Packet

A nomination packet must be submitted for each individual nomination. A nomination packet consists of this two-page nomination form, a current CV, and letters from three references along with their address, telephone, facsimile number and email address. It is the responsibility of the nominator to contact the references and solicit letters of endorsement.

The complete nomination packet, including reference letters, must be received no later than the posted online deadline for the candidate to be eligible for consideration in the current year. Nomination packets will remain valid for three years following submission.

Nomination Packet Submission and Assistance with Questions

All nomination submissions should be submitted online: <https://www.embs.org/recognition/society-awards/>

NOMINATION FOR WILLIAM J. MORLOCK AWARD – Page One

Award:

William J. Morlock: _____
Memoriam Award

Identification of Nominated Candidate:

Name:
(Last Name, First Name)

Occupation:

Current Employer:

Current Position:

Phone Number (work):

Phone Number (home):

Fax:

E-mail:

IEEE Member Number:

Member Grade:

EMBS Member: Yes / No

Date of Highest Degree:

Proposed Citation (not more than 30 words):

Identification of Nominator:

Name:
(Last Name, First Name)

Phone Number:

Fax Number:

E-mail:

IEEE Member Number:

Supporting Documentation:

Letters from Three References (*Excluding Nominator*)

Names & Affiliations:

Attached

To be Forwarded

Candidate CV

NOMINATION FOR WILLIAM J. MORLOCK AWARD – Page Two

Candidate Name:

Identify the most significant contribution which qualifies the candidate for the award. Describe the contribution succinctly and explain why the contribution is significant.

List the three most important items of tangible and verifiable evidence of technical accomplishment such as technical publications; technical reports and presentations; patents; development of products, applications, and systems; and application of facilities and services. State the engineering significance of each.

Contribution

Other relevant information may be included on an additional page
